

ideal lux®

Nitro

Nitro is a professional range of ceiling lights with **integrated LEDs**, available in round or square versions, designed to provide powerful and controlled lighting in a **compact design**.

The light is high-performance and of the highest quality, with an **LED lifespan of 50,000 hours**. Installation is made easier as there are **no external drivers to manage**.

As the space grows, **Nitro** scales up whilst maintaining the same aesthetic: the **10 W** model is suitable for living areas, domestic worktops and wider passageways, whilst the **15 W** and **25 W** models are designed for large circulation areas.
